NETSPA CLEANER

For spa and pool

AQUATIC WIRELESS VACUUM

NETSPA CLEANER

A revolution for the maintenance of your pool!

Specially designed for spas and pools above ground, this vacuum cleaner will allow you to easily clean your pool. With its telescopic handle and swivel head, you can now go anywhere in your pool without putting your hands in the water.

Compact and powerful, it can catch up all the impurities and small debris present in the water. Its front receptacle will hold heavy debris like sand and pebbles while its filter traps impurities.

By its shape, the NetSpa Cleaner is able to effectively clean hard to reach areas of the spa.
