ICE BATHS

The next-generation ice bath

- **Compatible with chiller & ice** : a versatile tub that can be cooled using ice or a chiller to transform the water into an invigorating ice bath.
- **Complete accessory pack** : includes an inflation pump, carrying bag, thermal cover, connection kit, repair kit, and anti-bacterial cartridge.
- **Quick and easy setup** : inflate the tub in under 5 minutes — perfect for immediate, hassle-free use.
- **Optimal insulation** : maintain the bath at your desired temperature thanks to innovative materials and its thermal cover.
- **Drop-Stitch technology** : high-pressure inflation of the walls and floor ensures exceptional stability and rigidity.

NEXT-GENERATION COLD THERAPY

Netspa and UFC have partnered to create a next-generation range of ice baths using advanced drop-stitch technology.

This cold-therapy bath is designed to meet the demands of modern athletes—whether fighters or any sports person looking to optimize their recovery.

Innovative and durable, this model is compatible with the addition of ice for rapid cooling, or it can be equipped with a chiller to maintain the ideal temperature throughout the entire session.

OCTAGON & DUO

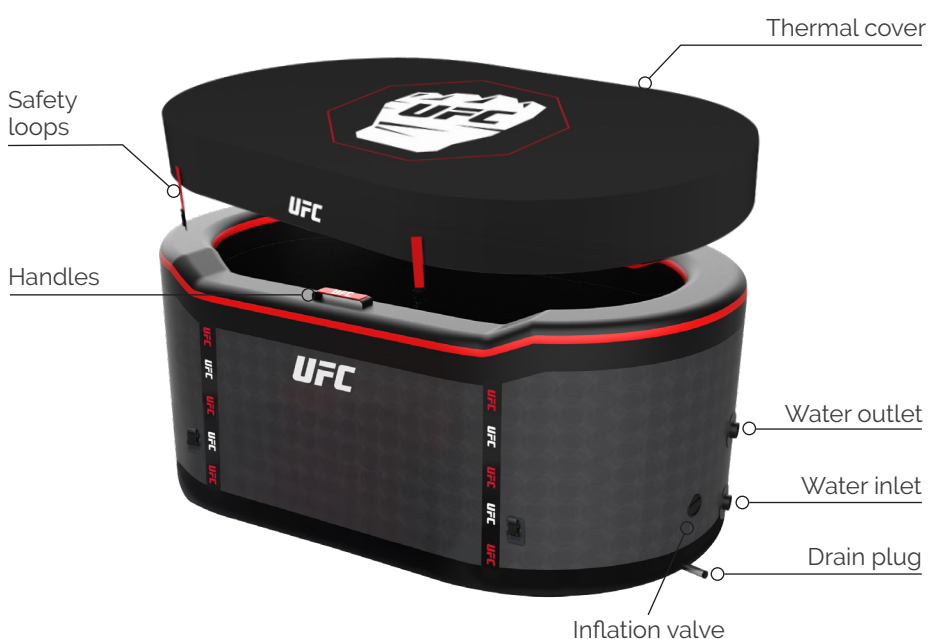

OCTAGON

DUO

COMPATIBLE WITH CHILLER

Cooling unit

A versatile tub that can be cooled using ice or a chiller to turn the water into a revitalizing ice bath. The chiller can cool the water down to 3°C electrically, allowing you to avoid purchasing 50 kg of ice for every session.

THE BENEFITS

BODY

- Muscle recovery
- Reduced inflammation
- Improved circulation
- Pain relief

MIND

- Stress reduction
- Improved self-confidence
- Enhanced mood
- Better sleep
- Improved focus and mental clarity
